

### Taking rolling to new dimensions!

Morgårdshammar AB is a registered company since 1856. The company manufactures machinery and equipment for rolling of long steel products. Morgårdshammar is a worldwide well-known company located in Smedjebacken and has been a part of Danieli Group, Italy since 1987. Danieli is one of the three largest suppliers in the world of equipment and complete facilities for the metal industry. Morgårdshammar is part of Daniel's Division for Long Products, with special emphasis on special steel equipment. Another product line includes the construction and delivery of rollers for rolling mills. Two of the company's new product areas are the end of the mining industry and adaptive software for the set-up of steel mills.

We are looking for

## Director, Project & Purchase

We are looking for a driven and positive person who can engage, support and develop our projects and purchasing department. You will have many internal and external contacts as well as work in an international environment. The department currently consists of 7 direct reporting persons who are; project managers, buyers and a group director for the design department. Morgårdshammar has begun Lean transformation and you will be an important part of this. With us, you will be able to develop both yourself and the department under your own responsibility. The role means you will be part of Morgårdshammar's management team and you report directly to the MD.
